REMARKS

The figures of births and deaths of India shown in this statement for week ending the 23rd November, 1957, relate to 176 towns with an estimated population of 22,894 thousands. Information about Assam, Bombay, Madhya Pradesh, and West Bengal could not be included. The total number of towns is 319 and their population is 42,930. Thus 55% of the total number of towns representing 53% of the total population is covered in this statement. The

number of births and deaths recorded in these towns were 15,499 and 5,825 representing birth and death rates of 35.2 and 13.2 respectively.

No town recorded a high death rate of 50 or over per thousand of population. The following table gives the position by States:—
